## From Youngest Youth To Old Age . Everything Man and Boy Wears .

After a quarter century of business publicity it rather jars your commercial pride to learn that there are intelligent persons in the same community who never heard of you. We've had this experience ourselves. Hence this blast.

Veneration for age doesn't apply to business. In fact, the old merchant is in danger of becoming a back number unless born with the instinct of "push," and wise enough to keep infusing new blood into his business organization to preserve a vital aggressiveness.

We are constantly changing our business methods and sometimes our principals, but never the principles on which this business has been built.

### Meritorious Merchandise

Whatever we sell must be of reliable quality. All wool and fast colors have for many years been the only standard for our woolsens.

### Satisfaction Always

We're not infallible, but no man can be "stuck" with an undesirable article—not if he lets us know his trouble. We refund cash as cheerfully as we take it in. Even after service, we still buy back for cash any goods which you think have not earned their cost.

### Agreeable Service

There is no concealment in our stores. Our people are taught to tell the simple truth about goods. If a thing is old, we say so—and mark it down. No premiums to salesmen for selling old goods at prices of new, no urging customers to buy.

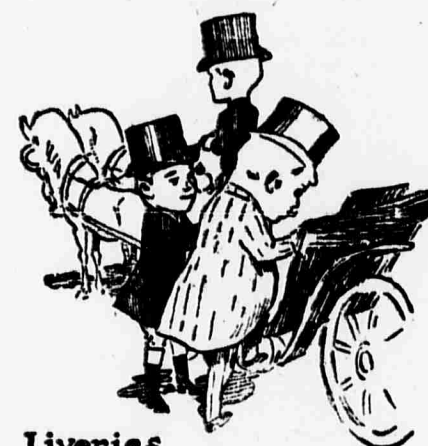

With the growth of the trade and enlargement of its scope one of our difficulties is to bring to notice the great variety of articles dealt in. Because we can mention only a few in each of our daily announcements, we set out the list here and invite a visit to the stores now stocked with the fresh Spring wearables for men of all ages after infancy.
